## PROFILE

4th year Software Engineering student majoring in Artificial Intelligence, with practical experience in machine learning model development and algorithm implementation. A fast learner and clear, structured thinker with excellent communication skills, I'm enthusiastic about applying AI to solve real-world problems.

## EMPLOYMENT HISTORY

### Customer Service & Refund Coordinator, Pai-Pay

Petah Tiqwa

2022

Provided customer support for a credit card company. Additionally, handled cases of fraud, ensuring swift processing of refunds for customers who experienced unauthorized transactions.

## EDUCATION

### Software Engineer, Afeka college of engineering

Tel Aviv

Oct 2022 — Present

### The Next Step, Final Project

2025 — Present

AI career guidance platform with adaptive assessment, personalized role matching, a step by step roadmap, and progress tracking.

### Ahad Ha'am High School

Petah Tiqwa

Sep 2015 — Jul 2018

## MILITARY SERVICE

### Team Leader in the National Monitoring Center

Rishon Lezion

Jul 2019 — Dec 2021

- Managed and monitored multiple systems simultaneously, including both military and civilian platforms.
- Conducted real-time crisis management during emergencies, leading conferences that utilized military tools to address incidents as they unfolded.
- Promoted to a leadership role after one year of service.
- *Responsible for overseeing critical systems operations regularly and during an emergency.*
- Coordinated closely with external and military entities.
- Commanded and led my own team within the National Monitoring Center.
